What a beautiful location! This house is just perfect on this lot and it makes for a very comfortable setting. The unique layout is a 3 bedroom and 2 bath that has a split design allowing for a lot of privacy for the master bedroom. The Leawood Lane area has established and very well kept homes and makes for a wonderful neighborhood. Custom cabinets, solid surface countertops, and stainless steel appliances are just a few of the extras and thoughtful details that make this house special. Please visit us online for more information including our complete inventory, financing options, and a history of our family owned company. We also build custom homes!
